Steel Counter Balanced Power Lift Roll Fork Attachment Black

MODEL S-CB-RFK

Ergonomic Solutions / Counter-Balanced Powered Drive Lifts

PRODUCT OVERVIEW

A roll fork is a wonderful accessory to the counter balanced powered lift. With a resilient design, the fork provides a more resourceful way to handle rolls. When the fork is in place and the roll is secured, the user is able to maneuver heavy rolls efficiently to the desired location.

KEY FEATURES

- Smooth finish minimizes abrasions
- Simply attached
- Design length enables use with a variety of sizes
- Robust steel construction
