Low Density Polyethylene Over Pack Drum Containment Container 800 Lb. Capacity Yellow

MODEL SCC-65-YL

Drum Handling Equipment / Overpack Containers

PRODUCT OVERVIEW

The drum containment is ideal for the manufacturing and maintenance facilities. The unit is constructed of low density polyethylene for strength and durability. The containment is suitable for use with 55 gallon steel or plastic drums. The bead blasted finish provides a more appealing surface texture and appearance.

KEY FEATURES

- Drum container is designed to contain leaks and spills
- Great for 55 gallon steel or plastic drums during transportation and storage
- Made from a sturdy construction for longtime use
- Constructed of low density polyethylene
